RIYA G JOHNSON

Software Engineer

riyajohnson275@gmail.com +91 9495484677

GraceVilla, Thattayil PO, Pathanamthitta 691525, India

Profile

Software Developer with 2.4 years of professional experience in software development, frontend development, automation, and testing. Currently working as a Software Developer at VVDN Technologies, Tech Group, with hands-on experience in Angular, TypeScript, JavaScript, HTML, CSS, Java, Python, and software automation. Experienced in developing scalable software solutions, integrating automation workflows, analyzing test results, and implementing automated test scenario generation from technical requirements. Strong interest in Artificial Intelligence, Machine Learning, AI-assisted software development, and intelligent automation. Seeking admission to a Master's degree in Artificial Intelligence to strengthen expertise in AI, Machine Learning, and intelligent software systems.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering 2019 – 2023 | India
Amal Jyothi College of Engineering
APJ Abdul Kalam Technological University CGPA: 9.2/10

High School, *St. Johns School* 2018 – 2019 | India
Biomathematics Class Plus two

SSLC, *St. Johns School* 2016 – 2017 | Pathanamthitta, Kerala
Class 10th CGPA: 9.4/10

Technical Skills

Programming Languages
Python, Java, JavaScript, TypeScript

Frontend Development
Angular, HTML, CSS

Software Development
Object-Oriented Programming, Software Development, Debugging, Problem Solving

AI & Emerging Technologies
Artificial Intelligence Fundamentals, AI-Assisted Software Development, Intelligent Automation

Development Tools
Git, GitLab, Visual Studio Code

Projects

Personal Assistant App

- Developed a personal assistant application that helps students gather information from the internet and connect with peers who share similar interests, supporting collaborative learning opportunities.
- Implemented the application using the **Flutter framework** to create a responsive and intuitive user interface across **iOS and Android** platforms.
- Implemented **secure authentication mechanisms and data encryption protocols** to protect user information and maintain data integrity.

Professional Experience

Software Developer | VVDN Technologies Kochi, Kerala | April 2024 – Present

- Develop and maintain software applications with a focus on frontend development using Angular, TypeScript, JavaScript, HTML, and CSS.
- Contribute to the design and development of scalable and maintainable software solutions based on project requirements.
- Develop and integrate automation features to improve software testing efficiency and reduce manual effort.
- Contribute to the development of adaptable automation frameworks supporting diverse project requirements and testing environments.
- Integrate software modules and testing tools into automation workflows to improve reliability and streamline development and testing processes.
- Develop automated test result analysis capabilities to identify trends, anomalies, and failure points, supporting faster debugging and root cause analysis.
- Implement automated parsing of technical requirement documents to generate test scenarios and improve test design efficiency and requirement coverage.
- Contribute to low-code and no-code automation capabilities, enabling users with limited programming knowledge to create and manage automated tests.
- Work with cross-functional teams to understand requirements, troubleshoot issues, debug software, and deliver reliable software solutions.
- Apply software development, testing, problem-solving, and analytical skills to improve application quality and development workflows.

CERTIFICATIONS AND TRAINING

- ME(A)RN Full Stack Web Development – Angular, React
- Problem Solving in C Programming – NPTEL, 2020
- Data Analysis with Python – Cognitive Class, 2023
- Four-Day Workshop on Python – Revertech, 2023
- Web Development Course – Indian Skill Capital, 2022

ENGLISH PROFICIENCY

English – PTE Academic: **69**

LANGUAGES

English- Professional Proficiency

Malayalam – Native
